

Euroklimat launches its new WebService²

We are **delighted** to officially announce the launch of **WebService²**, the **Euroklimat** portal dedicated to Customers. The site has been specially designed to meet all the needs and everyday necessities of those who have purchased our product.

webservice.euroklimat.it

WebService² is renewed with **many new features**:

- A new and unique search box for Serial Numbers and Spare Parts
- Possibility to consult the documentation related to a specific Serial Number (CE Declaration, wiring diagrams, dimensional drawings, manuals, P&ID, parameter lists, etc.)
- Possibility to consult the spare part list of a specific Serial Number
- Possibility to upload documentation related to a specific Serial Number (start-up module, photo of the unit, etc.)
- Possibility to consult administrative documentation such as order confirmations, waybills and invoices

The screenshot shows the Euroklimat WebService² portal interface. At the top, there is a navigation bar with the 'ID Client' button, the 'EK WebService²' logo, a search bar containing 'EKSHL...', and language selection icons for Italian, English, and German. Below the navigation bar, the main content area displays the following information:

- Code:** EKSHL...Q
- Description:** eks-BS/HE/SU/AS 110-4-2 R410A 400/3/50
- Spare Part List:** A button with PDF and document icons.
- File Upload:** A blue button with an upload icon.
- Administrative Documents:** A table listing documents:

Order Conf.	OC17	of	09/03/17
